#### Note Regarding the Presentation of Alternative Performance Measures

We use certain alternative performance measures (non-IFRS performance measures) to make financial, operating and planning decisions and to evaluate and report performance. We believe these measures provide useful information to investors and as such, where clearly identified, we have included certain alternative performance measures in this document to allow investors to better analyse our business performance and allow for greater comparability. To do so, we have excluded items affecting the comparability of period-over-period financial performance as described below. The alternative performance measures included herein should be read in conjunction with and do not replace the directly reconcilable IFRS measures.

For purposes of this document, the following terms are defined:

“**As reported**” are results extracted from our consolidated financial statements.

“**Comparable**” is defined as results excluding items impacting comparability, which include restructuring charges, income arising from the ownership of certain mineral rights in Australia, gain on sale of sub-strata and associated mineral rights in Australia, net impact related to European flooding and acquisition and integration related costs. Comparable volume is also adjusted for selling days.

“**Fx-neutral**” or “**FXN**” is defined as period results excluding the impact of foreign exchange rate changes. Foreign exchange impact is calculated by recasting current year results at prior year exchange rates.

“**Dividend payout ratio**” is defined as dividends as a proportion of comparable profit after tax.

Unless otherwise stated, percent amounts are rounded to the nearest 0.5%.

#### France

- Q3 volume decline reflects strong comps & mixed summer weather this year.
- Fuze Tea continued to perform well achieving double-digit volume growth (+26%). Monster, Sprite & Powerade also outperformed.
- Revenue/UC<sup>[14]</sup> growth driven by headline price increase implemented in the first quarter.

#### Germany

- Q3 volume growth reflects continued strong trading in the Home channel supported by great execution.
- Continued growth in Coca-Cola Zero Sugar & Fanta. Monster, Fuze Tea & Powerade achieved double-digit volume growth.
- Revenue/UC<sup>[14]</sup> growth driven by favourable price from the annualisation of the second headline price increase last year & further price implemented in Q3. Positive brand mix also contributed to the growth e.g. Monster volume +42.0%.

#### Great Britain

- Q3 volume decline reflects strong comps & mixed weather during key summer months (July & August).
- High single digit growth in Coca-Cola Zero Sugar & Monster achieved double-digit growth.
- Revenue/UC<sup>[14]</sup> growth driven by headline price increase implemented at the end of the second quarter. Positive brand mix also contributed to the growth e.g. Monster volume growth +10.0% & launch of Jack Daniel's & Coca-Cola.

#### Iberia

- Q3 volume decline reflects strong comps & strategic de-listings within Spain's bulk water portfolio. AFH benefiting from strong tourism, trending ahead of pre-pandemic levels.
- Coca-Cola Zero Sugar, Sprite & Monster performed well. Royal Bliss achieved double-digit growth (+43%), supported by launch in Portugal.
- Revenue/UC<sup>[14]</sup> growth driven by headline price, implemented in the first quarter & positive mix.

#### Northern Europe

- Q3 volume decline reflects strong comps (cycling double-digit volume growth) & mixed summer weather this year.
- Monster, Powerade & Aquarius outperformed achieving double-digit volume growth.
- Revenue/UC<sup>[14]</sup> growth driven by headline price increase implemented across the markets this year (Netherlands in Q3).

#### API

- Australia & NZ grew Q3 volumes despite strategic de-listings within Australia's bulk water portfolio, supported by solid execution, including great Women's World Cup activation. Overall volume decline reflects the strategic SKU rationalisation & softer consumer spending in Indonesia.

- Coca-Cola Zero Sugar, Monster & Powerade outperformed.
- Encouraging start to the launch of Coca-Cola Zero Sugar & Sprite Zero in Indonesia.
- Revenue/UC<sup>[14]</sup> growth driven by headline price increase implemented across all markets during the first half.

## Forward-Looking Statements

This document contains statements, estimates or projections that constitute “forward-looking statements” concerning the financial condition, performance, results, guidance and outlook, dividends, consequences of mergers, acquisitions, joint ventures, and divestitures, including the proposed joint venture with Aboitiz Equity Ventures Inc. (AEV) and acquisition of Coca-Cola Beverages Philippines, Inc. (CCBPI), strategy and objectives of Coca-Cola Europacific Partners plc and its subsidiaries (together CCEP or the Group). Generally, the words “ambition”, “target”, “aim”, “believe”, “expect”, “intend”, “estimate”, “anticipate”, “project”, “plan”, “seek”, “may”, “could”, “would”, “should”, “might”, “will”, “forecast”, “outlook”, “guidance”, “possible”, “potential”, “predict”, “objective” and similar expressions identify forward-looking statements, which generally are not historical in nature.

Forward-looking statements are subject to certain risks that could cause actual results to differ materially from CCEP’s historical experience and present expectations or projections. As a result, undue reliance should not be placed on forward-looking statements, which speak only as of the date on which they are made. These risks include but are not limited to:

1. those set forth in the “Risk Factors” section of CCEP’s 2022 Annual Report on Form 20-F filed with the SEC on 17 March 2023 and as updated and supplemented with the additional information set forth in the “Principal Risks and Risk Factors” section of the H1 2023 Half-year Report filed with the SEC on 2 August 2023;
2. risks and uncertainties relating to the global supply chain and distribution, including impact from war in Ukraine and increasing geopolitical tensions and conflicts including in the Middle East and Asia Pacific region, such as the risk that the business will not be able to guarantee sufficient supply of raw materials, supplies, finished goods, natural gas and oil and increased state-sponsored cyber risks;
3. risks and uncertainties relating to the global economy and/or a potential recession in one or more countries, including risks from elevated inflation, price increases, price elasticity, disposable income of consumers and employees, pressure on and from suppliers, increased fraud, and the perception or manifestation of a global economic downturn;
4. risks and uncertainties relating to potential global energy crisis, with potential interruptions and shortages in the global energy supply, specifically the natural gas supply in our territories. Energy shortages at our sites, our suppliers and customers could cause interruptions to our supply chain and capability to meet our production and distribution targets;
5. risks and uncertainties relating to potential water use reductions due to regulations by national and regional authorities leading to a potential temporary decrease in production volume; and
6. risks and uncertainties relating to the proposed joint venture with AEV and acquisition of CCBPI, including the risk that the proposed transactions may not be consummated on the currently contemplated terms or at all, or that our integration of CCBPI’s business and operations may not be successful or may be more difficult, time consuming or costly than expected.

Due to these risks, CCEP’s actual future financial condition, results of operations, and business activities, including its results, dividend payments, capital and leverage ratios, growth, including growth in revenue, cost of sales per unit case and operating profit, free cash flow, market share, tax rate, efficiency savings, achievement of sustainability goals, including net zero emissions and recycling initiatives, capital expenditures, our agreements relating to and results of the proposed joint venture with AEV and acquisition of CCBPI, and ability to remain in compliance with existing and future regulatory compliance, may differ materially from the plans, goals, expectations and guidance set out in forward-looking statements. These risks may also adversely affect CCEP’s share price. Additional risks that may impact CCEP’s future financial condition and performance are identified in filings with the SEC which are available on the SEC’s website at [www.sec.gov](http://www.sec.gov). CCEP does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required under applicable rules, laws and regulations. Any or all of the forward-looking statements contained in this filing and in any other of CCEP’s public statements may prove to be incorrect.
