### **Trading Update for the Third-Quarter ended 1 October 2021 & FY21 Dividend Declaration**

#### **Note Regarding the Presentation of Pro forma financial information and Alternative Performance Measures**

##### **Pro forma financial information**

Pro forma financial information has been provided in order to illustrate the effects of the acquisition of Coca-Cola Amatil Limited (CCL or API) on the results of operations of CCEP and allow for greater comparability of the results of the combined group between periods. The Pro forma financial information has been prepared for illustrative purposes only and because of its nature, addresses a hypothetical situation. It is based on information and assumptions that CCEP believes are reasonable. For further information, refer to our Half Year Report published on 2 September 2021, which provides further details on our non-GAAP performance measures and reconciles, where applicable, our results as reported under IFRS to Pro forma financial information and non-GAAP performance measures.

The Pro forma financial information presented in this document reflects the inclusion of API revenue as if the acquisition had occurred at the beginning of the period presented and prepared on a basis consistent with CCEP accounting policies.

The Pro forma financial information does not intend to represent what CCEP's results of operations actually would have been if the acquisition had been completed on the dates indicated, nor does it intend to represent, predict or estimate the results of operations for any future period or financial position at any future date. In addition, it does not reflect ongoing cost savings that CCEP expects to achieve as a result of the acquisition or the costs necessary to achieve these cost savings or synergies. As pro forma information is prepared to illustrate retrospectively the effects of future transactions, there are limitations that are inherent to the nature of pro forma information. As such, had the acquisition taken place on the dates assumed, the actual effects would not necessarily have been the same as those presented in the Pro forma financial information contained herein.

##### **Alternative Performance Measures**

We use certain alternative performance measures (non-GAAP performance measures) to make financial, operating and planning decisions and to evaluate and report performance. We believe these measures provide useful information to investors and as such, where clearly identified, we have included certain alternative performance measures in this document to allow investors to better analyse our business performance and allow for greater comparability. To do so, we have excluded items affecting the comparability of period-over-period financial performance as described below. The alternative performance measures included herein should be read in conjunction with and do not replace the directly reconcilable GAAP measures.

For purposes of this document, the following terms are defined:

**"As reported"** are results extracted from our condensed consolidated interim financial statements.

**"Pro forma"** includes the results of CCEP and API as if the Acquisition had occurred at the beginning of the period presented. In this document, the Pro forma financial information adjustments reflect the inclusion of API revenue as if the acquisition had occurred at the beginning of the period presented and prepared on a basis consistent with CCEP accounting policies.

**"Comparable"** is defined as results excluding items impacting comparability, which include restructuring charges, acquisition and integration related costs, inventory fair value step up related to acquisition accounting, the impact of the closure of the GB defined benefit pension scheme and net tax items relating to rate and law changes. Comparable volume is also adjusted for selling days.

**"Pro forma Comparable"** is defined as the pro forma results excluding items impacting comparability, as described above.

**"Fx-neutral"** or **"FXN"** is defined as period results excluding the impact of foreign exchange rate changes. Foreign exchange impact is calculated by recasting current year results at prior year exchange rates.

**"Dividend payout ratio"** is defined as dividends as a proportion of comparable profit after tax.

Additionally, within this document, we provide certain forward-looking non-GAAP financial information, which management uses for planning and measuring performance. We are not able to reconcile forward-looking non-GAAP measures to reported measures without unreasonable efforts because it is not possible to predict with a reasonable degree of certainty the actual impact or exact timing of items that may impact comparability throughout the year.

Unless otherwise stated, percent amounts are rounded to the nearest 0.5%.

## Q3 HIGHLIGHTS<sup>[2],[3]</sup>

### Q3 Reported revenue +24.0% (Pro forma revenue (+0.5%))<sup>[6]</sup>

- NARTD YTD value share gains<sup>[4]</sup> across measured channels both in store (+50bps) & online (+130bps)
- Delivered more revenue growth for our retail customers than any of our FMCG peers (including YTD)<sup>[5]</sup>
- Pro forma comparable volume slightly down (-1.5%<sup>[7]</sup>; Q3 2021 -5.5% vs 2019) reflecting adverse weather in Europe & renewed restrictions across API
  - volumes by channel: Away from Home (AFH) +4.0% reflecting continued recovery of HoReCa<sup>[8]</sup> across Europe (-12.0% vs 2019) & immediate consumption (IC) packs offset by Home -5.0% (flat vs 2019)
- Improving recent trading reflecting lifting of restrictions in API ahead of the summer trading period & continued recovery in Europe
- Reported and Pro forma revenue per unit case +2.0%<sup>[1],[6]</sup> (+2.5%<sup>[9]</sup> vs 2019) reflecting positive pack & channel mix in Europe driven by the improvement in AFH volumes & growth in IC packs alongside favourable price across CCEP

### Dividend

- Declaring FY21 dividend per share of €1.40, +64.5% vs last year & +13.0% vs 2019, maintaining annualised dividend payout ratio of approximately 50%

### Other

- Raising FY21 guidance reflecting the solid performance in Q3 & the improving outlook for rest of the year: see detailed guidance below
- API integration remains on track & progressing well; recently announced plans in Australia to enable greater focus on NARTD, RTD alcohol & Spirits:
  - exit production, sale & distribution of Beer & Apple Cider products
  - proposed sale of Feral craft beer
- Sustainability:
  - Germany on-the-go (OTG) packs now 100% recycled PET (rPET)
  - France moving all Coca-Cola portfolio OTG packs to 100% rPET from April 2022 & introducing tethered caps from the end of 2022

## GUIDANCE

The outlook for FY21 & FY22 reflects our current assessment of the scale and magnitude of the COVID-19 pandemic, which is subject to change as we continue to monitor ongoing developments.

### FY21 (updated from H1 21)

FY21 guidance is on a comparable basis, reflecting the timing impact of the acquisition of API which completed on 10 May 2021, and based on actual Fx rates.

- Revenue: comparable growth of 29-30%<sup>[10]</sup> (previously 26-28%)
- Operating profit: comparable growth of 46-49%<sup>[10]</sup> (previously 40-44%)
- Comparable effective tax rate: ~20%<sup>[10]</sup> (unchanged)
- EPS: comparable growth of 54-57%<sup>[10]</sup> (new)

### FY22

FY22 guidance is on a pro forma comparable & Fx-neutral basis.

- Cost of sales per unit case: pro forma comparable growth of 4-5% (new)

### API

- YTD volume growth adversely impacted by renewed restrictions in Q3. Adverse AFH volumes partially offset by growth in the Home channel in Australia & New Zealand.
- In Q3, Coca-Cola No Sugar continued to outperform in Australia, with the new formulation & look launched late September. Monster continued to grow in all markets.
- Q3 revenue/UC<sup>[15]</sup> growth driven by underlying price & the impact of Container Deposit Scheme changes in Australia, partially offset by unfavourable channel & pack mix as a result of the restrictions.

### France

- Q3 volume decline driven by adverse weather and cycling a strong recovery after the first COVID-19 wave (FY20 Q3 revenue +6.0%). Soft volumes in both the Home & AFH channels.
- Monster & Capri-Sun continued to outperform with both Q3 & YTD volumes above 2019 levels.
- Q3 revenue/UC<sup>[15]</sup> growth driven by positive pack mix from OTG PET & positive underlying price.

### Germany

- Volume decline in Q3 in both channels driven by adverse weather. Some restrictions within HoReCa<sup>[9]</sup> & Leisure sub-channels impacted overall AFH performance.
- Monster & Fuze Tea continued to outperform during both Q3 & YTD.
- Q3 revenue/UC<sup>[15]</sup> growth driven by positive brand mix, in particular the continued growth in Energy & the reorienting of our Hydration portfolio at the start of the year. This was partially offset by adverse pack mix as adverse weather limited OTG PET demand.

### Great Britain

- Q3 volume growth driven by continued strong recovery of AFH, increased domestic tourism & solid execution to navigate through industry wide supply constraints. Continued solid performance in the Home channel.
- Coca-Cola Zero Sugar & Monster continued to outperform, with Q3 volumes up more than 30% vs 2019.
- Q3 revenue/UC<sup>[15]</sup> growth supported by promotional activity changes & positive pack mix from continued IC recovery e.g. small PET +29.5%; small glass +24.5%.

### Iberia

- Modest volume growth in Q3 reflected the easing of restrictions, however suppressed international tourism limited the overall recovery in AFH vs 2019. In the Home channel, the decline in volume was driven by the increased Spanish VAT rate.
- IC packs, Nestea & Monster outperformed during both Q3 & YTD.
- Q3 revenue/UC<sup>[15]</sup> growth supported by improving pack & channel mix driven by the recovery of HoReCa<sup>[9]</sup> volumes & positive underlying price.

### Northern Europe

- Q3 volume decline reflects adverse weather, including the impact of the flooding in Belgium in July, partially offset by the continued recovery of AFH.
- Coca-Cola Zero Sugar continued to outperform, with volumes up 28.0% in Q3 vs 2019.
- Q3 revenue/UC<sup>[15]</sup> (excluding soft drinks taxes<sup>[16]</sup>) growth in Q3 driven by positive brand & pack mix as demand for IC packs continued to recover.

#### Coca-Cola®

- Q3 Classic -3.5%; Lights +1.5% reflecting the continued solid performance of the reformulated & rebranded Coca-Cola Zero Sugar (+4.0%)
- Q3 & YTD Coca-Cola Zero Sugar in growth vs 2019 (Q3:+13.0%; YTD:+12.0%)
- GB outperformed with growth in Classic, Diet & Zero Sugar in Q3 vs 2019

#### Flavours, Mixers & Energy

- Q3 Fanta -4.0%; YTD +3.5% driven by the cycling of tougher comparables & restrictions in API during Q3
- Continued strong growth in Energy across all markets (Q3:+8.5%; YTD:+25.5%) led by Monster supported by solid execution

#### Hydration

- Q3 Water -9.5% (-36.0% vs 2019); YTD -6.5% (-35.5% vs 2019) reflecting the impact of the pandemic & its exposure to IC across both channels, partially offset by Sports
- Sparkling Water continued to deliver solid growth in Australia (Q3:+41.5% vs 2019) driven by multi-pack can formats in the Home channel

#### RTD Tea, RTD Coffee, Juices & Other<sup>[17]</sup>

- Q3 Juice drinks +5.5%; YTD +11.5% driven by increased mobility in Europe & solid growth in Capri-Sun (YTD: +15.5% vs 2019)
- Fuze Tea in growth vs 2019 (Q3: +9.5%; YTD: +9.0%<sup>[18]</sup>) & continuing to grow value share in Europe<sup>[4],[18]</sup>
- Alcohol delivered strong growth in Australia (YTD: +3.0% vs 2019) driven by RTD Spirits, including the successful roll out of -196 Double Lemon

## Forward-Looking Statements

*This document contains statements, estimates or projections that constitute "forward-looking statements" concerning the financial condition, performance, results, strategy and objectives of Coca-Cola Europacific Partners plc and its subsidiaries (together "CCEP" or the "Group"). Generally, the words "believe," "expect," "intend," "estimate," "anticipate," "project," "plan," "seek," "may," "could," "would," "should," "might," "will," "forecast," "outlook," "guidance," "possible," "potential," "predict," "objective" and similar expressions identify forward-looking statements, which generally are not historical in nature.*

*Forward-looking statements are subject to certain risks that could cause actual results to differ materially from CCEP's historical experience and present expectations or projections, including with respect to the acquisition of Coca-Cola Amatil Limited and its subsidiaries (together "CCL" or "API") completed on 10 May 2021 (the "Acquisition"). As a result, undue reliance should not be placed on forward-looking statements, which speak only as of the date on which they are made. These risks include but are not limited to:*

*1. those set forth in the "Risk Factors" section of CCEP's 2020 Annual Report on Form 20-F filed with the SEC on 12 March 2021, as updated and supplemented with the additional information set forth in the "Principal Risks and Risk Factors" section of the H1 2021 Half-year Report Filed with the SEC on 2 September 2021;*

*2. those set forth in the "Business and Sustainability Risks" section of CCL's 2020 Financial and Statutory Reports; and*

*3. risks and uncertainties relating to the Acquisition, including the risk that the businesses will not be integrated successfully or such integration may be more difficult, time consuming or costly than expected, which could result in additional demands on CCEP's resources, systems, procedures and controls, disruption of its ongoing business and diversion of management's attention from other business concerns; the possibility that certain assumptions with respect to API or the Acquisition could prove to be inaccurate; burdensome conditions imposed in connection with any regulatory approvals; ability to raise financing; the potential that the Acquisition may involve unexpected liabilities for which there is no indemnity; the potential failure to retain key employees as a result of the Acquisition or during integration of the businesses and disruptions resulting from the Acquisition, making it more difficult to maintain business relationships; the potential for (i) negative reaction from financial markets, customers, regulators, employees and other stakeholders, (ii) litigation related to the Acquisition.*

*The full extent to which the COVID-19 pandemic will negatively affect CCEP and the results of its operations, financial condition and cash flows will depend on future developments that are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and actions taken by governmental authorities and other third parties in response to the pandemic.*

*Due to these risks, CCEP's actual future results, dividend payments, capital and leverage ratios, growth, market share, tax rate, efficiency savings, and the results of the integration of the businesses following the Acquisition, including expected efficiency and combination savings, may differ materially from the plans, goals, expectations and guidance set out in forward-looking statements (including those issued by CCL prior to the Acquisition). These risks may also adversely affect CCEP's share price. Additional risks that may impact CCEP's future financial condition and performance are identified in filings with the SEC which are available on the SEC's website at [www.sec.gov](http://www.sec.gov). CCEP does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required under applicable rules, laws and regulations. Furthermore, CCEP assumes no responsibility for the accuracy and completeness of any forward-looking statements. Any or all of the forward-looking statements contained in this filing and in any other of CCEP's or CCL's public statements (whether prior or subsequent to the Acquisition) may prove to be incorrect.*
